## Engineering Change Notification

This notice is to inform you of a change to the following LCD:

### NHD-C160100DiZ-FSW-FBW

Based on considerable feedback from customers, the display FPC has been redesigned to add the following features:

- Internal pull-up added to set COMSCN = HIGH as the default configuration.
- Pin #1 changed from NC to COMSCN so that users can change the display output direction.

The new displays will be labeled with a different revision control number after the part number. See example below.
