Engineering Change Notification

This notice is to inform you of a change to the following OLED products:

NHD-0216SZW-BB5
NHD-0216SZW-BG5
NHD-0216SZW-BY5

The controller IC used in manufacturing of these displays has been upgraded to a newer version. As a result of this change, the PCB design was also revised to meet the new IC requirements. All our testing has found the new version to be backwards compatible with existing systems.

The new displays will be labeled with a different revision control number after the part number. See example below. The same revision control number may not apply for all models.

We understand that every customer's application is unique, and therefore recommend you test and validate samples of the updated design.

Samples may be requested by contacting us at nhsales@newhavendisplay.com.
When requesting samples, please specify that your inquiry pertains to the new version.

Please visit www.newhavendisplay.com or email nhtech@newhavendisplay.com for further information or assistance with this change.
