The TN glass used in the manufacturing of these displays is no longer available. As a result, we cannot continue to produce these displays in their current design.

A last-time-buy option for the existing displays is not available, but alternative options are available. The following table lists recommended alternatives from our new IPS product offering. Please refer to the attached **4.3 IPS Transition Guide** to view the key features of our new IPS display in comparison to the EOL TN displays.

If you do not see a recommended alternative for your part, it is possible that its replacement may be available only as a non-stocked or custom item. Please contact our Sales or Engineering team for further information.
