The RA6963-N controller IC used in these displays has been discontinued and replaced by RA6963-N1, which is an alternative version of the same controller.

All our testing found the new version to be backwards compatible with existing systems.

The new version will be labeled with a different revision control number after the part number. See example below. The same revision control number may not apply for all models.

We understand that every customer's application is unique, and therefore recommend you test and validate samples of the updated design.

Samples may be purchased by contacting us at [nhsales@newhavendisplay.com](mailto:nhsales@newhavendisplay.com). When ordering samples, please specify that you would like to receive the new version.

Please visit [www.newhavendisplay.com](http://www.newhavendisplay.com) or email [nhtech@newhavendisplay.com](mailto:nhtech@newhavendisplay.com) for further information or assistance with this change.
